

Intermountain APIC HAI Prevention Learning Network Monthly Webinar Series

Starting in 2012, the Intermountain Chapter of the Association for Professionals in Infection Control and Epidemiology, in coordination with Qualis Health, is offering healthcare providers an enhanced learning forum for priority healthcare-associated infection (HAI) prevention topics. Monthly I-APIC education events have improved remote access through webinar technology and archived recordings for later viewing.

Registration information is available on monthly flyers.

Please mark your calendars and join us for the following webinar topics:

All webinars will be held from 1:00 – 2:00pm MT, 12:00pm – 1:00pm PT.

January 26 A Patient's Perspective on HAI	July 11 Summer Bugs
February 15 Reporting CAUTI Cases	August 8 Central Line Infections
March 14 Reporting SSI Cases	September 12 Influenza Update
April 11 <i>Clostridium difficile</i> Update	October 10 I-APIC Annual Conference
May 9 Antimicrobial Stewardship	November 14 MRSA Bacteremia
June 13 Hand Hygiene	December 12 TBD

This series is open to participants from all healthcare settings and other healthcare stakeholders. You are encouraged to invite infection prevention, quality, and clinical staff as appropriate from across your organization to take part in each of the webinars. Recordings will also be made available for future reference on the I-APIC website: <http://apicintermountain.com>.

The series is offered free of charge. APIC membership is not a requirement to participate. Registered nursing (RN) continuing education credits will be pursued for each learning event.
