Course 2549

National Patient Safety Goals (NPSGs) 2010 Update:
Ensuring Compliance

The Joint Commission has made many changes to the 2010 National Patient Safety Goals. There are also numerous Safety Goals that hospitals continue to have difficulty with compliance. Learn from an expert strategies to ensure compliance with the NPSGs.

Programs Topics:

- Goal 1: Improve the accuracy of patient identification
- Goal 2: Improve the effectiveness of communication among caregivers
- Goal 3: Improve the safety of using medications including anticoagulants
- Goal 7: Reduce the risk of health-care associated infections (central lines, multi-drug resistant organisms; preventing surgical site infections, and hand hygiene)
- Goal 8: Medication reconciliation (watch for more changes)
- Goal 15: Identification of safety risks
- Universal Protocol changes to prevent wrong site surgery

Objectives:

At the completion of this program, the participant will be able to:

- Describe the changes to the universal protocol and how hospitals will need to amend their policies to conform
- Discuss the infection control goals and how to prevent multi-drug resistant organisms and why non-compliance can be very costly to hospitals
