## **EIRMC opens integrated surgical robotics suite**

Eastern Idaho Regional Medical Center announced the launch of its new Fully Integrated Surgical Robotics Suite, the first and only one of its kind in Idaho.

An EIRMC release said the 800 square foot, state-of-the-art operating suite includes EIRMC's Da Vinci Surgical Robot System and a new fully loaded high depth laparoscopic video system, which puts EIRMC "at the forefront of robotic and laparoscopic surgery." The release said these tools give EIRMC patients the opportunity to undergo minimally invasive surgeries which have lower recovery times and fewer post-surgical complications.
